END OF SEARCH HISTORY

SPE's: in eDAN you may not be able to see the names of some employees in the eDAN=> Tools=>View Docket list. This is a problem with the software and will be fixed this summer. The 'work-around' for this is to select the top-most item on the list (it will say 'Docket Report for 26XX') and a roll-up report will come up that will give access to all of the examiners.

After this bi-week, two production reports will be produced for each examiner. One will be the production in the new art unit, the other will be the 'combined' production report. The year-to-date production is in the combined report.

Let me know of any problems that arise. Thanks.
